

Notes for LED Full Face Retro's:

- These are made to use in H-D OEM bullet style turn signal housings only.
- Install is EASY. Remove lens, remove light bulb, insert LED Retro directly in front of reflector, use a flat blade screw driver to push and turn bayonet base into socket.
- Replace lens, this locks LED board in place.
- In turn signal applications a Load Equalizer, Smart Equalizer (H-D) or no-load flasher will be required. Available through Weekend Concepts or your local shop.
- 3 year replacement Warranty: Weekend Concepts warrants that this product will be free from all defects in material and workmanship for a period of 3 years from date of purchase. This warranty does not cover damage caused by accidents, tampering, or unreasonable use. See Weekend Concepts General Warranty for more information.

Thanks for choosing Lazer Star!
